Reverse Bevel Edge

Today you may need two quarter-rounds for a meeting and tomorrow you may need just one for individual project work. That's the beauty of Myriad. It allows you to learn and work individually or in groups of all sizes.

- Reverse bevel edge on the table provides a lighter scale look
- Aluminum legs come in two proprietary shapes: corner and radius
- Legs are anodized or can be powder coated to a variety of finishes
- Reconfigurable for a variety of options
- Optional casters for maximum flexibility
- Optional power access
- Convenient wire management
- Optional privacy screens with brushed stainless finish clamps

Choices, choices. With multiple standard table tops to choose from, plus coffee and occasional tables, Myriad makes it easy to find a shape that's just right for any setting or type of work.
