

**PIN-FAST**

Worden Pin-Fast® Shelving System

- A. 82" high single-faced shelving with adder unit, steel shelves, and magazine shelves.
- B. 96" high single-faced wood shelving with adder unit.
- C. 63" high single-faced wood shelving with steel picture book shelves.
- D. 42" high single-faced wood shelving with glass doors.

## Functional, Adaptable & Economical

This is a system of shelving options, designed to meet functional needs and budget constraints, as well as dimensional requirements. Each choice allows the ability to create shelving to suit your needs. It offers various construction materials in shelving uprights, adjustable shelves, and toekicks. Pin-Fast shelving is available in oak or maple species. Shelves are offered in wood or steel. Pin-Fast is designed primarily to meet all functional and aesthetic shelving requirements with a unique design that can be field modified and altered to fit a specific space.

## Field Modification

Field Modification allows shelving to be modified on site. Using the proper tools, single-faced or double-faced shelving can be adapted to fit the dimensions of any space. Both wood and steel shelves can be field-cut to fit the length of a modified shelving unit. Save time and money with Pin-Fast shelving, the solution for your unique space.
