Fabric Care and Maintenance*

For further instructions on the care and maintenance of fabrics please consult the care instructions of the fabric manufacturer.

Wood Care and Maintenance*

Protective Coats/Catalyzed Lacquer Topcoat

Dusting: Use a lint free cotton cloth.

General Cleaning: Use a 10:1 mixture of water and Murphy's Oil Soap. Work with the grain of the wood.

Household Cleaners: Do not use

Abrasive Cleaners: Do not use

Silicon Base, Oil-based, or Wax Cleaners: Do not use. Despite the initial shine - not good for the long term beauty of the furniture

Spills: Use blotting verses wiping method when cleaning up spills. Clean all spills up as quickly as possible

Sunlight: Exposure to direct sunlight is bad for wood furniture

Furniture Location: Avoid placing furniture directly next to or in front of radiator or air conditioning vents.

Lamps and Other Items: Make sure to place felt, leather or cloth, not rubber or plastic directly on the wood surface.

Hot Items: Avoid placing directly on the furniture

Rearranging: When rearranging, lift. Do not drag the furniture.

Furniture Polish: Do not use
