

TEMPUS

Worden Tempus Collection

Timeless.

Time may pass but Tempus never ages. As relevant today as the day of its debut, Tempus offers a modern interpretation of design motifs with historical references to the Arts and Crafts Movement. Showcased in oak or maple with all wood panels banded in solid hardwoods. Knife-edged work surfaces and reveal details add to the timeless value of this complete collection. Created exclusively for Worden by David Allen Pessa, the Tempus Collection is a beautiful extension of today's modern library.

The Tempus Collection offers a broad spectrum of traditional and technical furniture including study chairs, tables, carrels and OPAC stations.
